SUMMARY

To leverage my expertise in data analysis, machine learning, and predictive modeling as a Data Scientist, transforming complex data into actionable insights that drive strategic business decisions and foster impactful outcomes

EDUCATION

- **Bachelor of Computer Applications (B.C.A)**

Sri Sankara Arts and Science College, Kanchipuram,2021-2024

- **Higher Secondary Education**

Bharathidasan Matric Hr. Sec. School, Kanchipuram,2020-2021

EXPERIENCE

Associate Research Executive
Zinnov Management Consulting, Nemili, Kanchipuram
October 2024 - Present

Data Science Intern
Shiash Info Solutions Private Limited, Chennai
June 2024 - October 2024

- Conducted data preprocessing, including library imports, dataset cleaning, handling missing values, and data visualization through various charts.
- Developed and deployed machine learning models customer churn, stock price prediction, loan approval using Streamlit, enabling high accuracy and real-time user interaction.
- Gained proficiency in Power BI for advanced data visualization and insights..

SKILLS

- **Data Analysis:** Python, Pandas, NumPy, Matplotlib,Seaborn, Sklearn.
- **Machine Learning Models:** Linear Regression, Logistic Regression, Decision Trees, Random Forest, K-Means Clustering,XGBoost.
- **Database Management:** MySQL.
- **Tools:** Power BI, Excel, Ms office, Streamlit.
- **Programming:** Python, C, C++, JavaScript, HTML, CSS.

PROJECTS

Project Title: Sales Performance Analysis Using Power BI
Description:

- Engineered interactive visualizations in Power BI that highlighted key sales trends per region, enabling the identification of top-performing products and informing strategic initiatives based on insights derived from actionable dashboard analytics.
- Conducted trend analysis and improved financial reporting using Excel DAX, reducing analysis time and supporting strategic decision-making.

Project Title: Customer Churn Analysis
Description:

- Processed customer data, visualized key features, and applied LabelEncoding for model training.
- Trained a Logistic Regression model, achieving high accuracy in predicting customer churn.

Project Title: Loan Prediction App

Description:

- Analyzed loan data and visualized relationships; implemented classifiers including Logistic Regression and Random Forest.
- Deployed a predictive model on Streamlit for real-time loan approval predictions.

Test Scores

TCS ION NQT - IT (2024)

- Total Marks: 1529.66 / 3000
- Percentage: 50.99%
- Skill Areas: Aptitude, Cognitive Skills, Programming

CERTIFICATIONS AND WORKSHOP

- Power BI Workshop – Office Master | October 2024
- Introduction to Data Science – Cisco Networking Academy| March 2024
- AI Workshop – Be10x | March 2024
- Honors Diploma in Computer Applications –CSC Institute | 2022–2023

EXTRA-CURRICULAR ACTIVITIES

- Conducted independent stock market analysis and investment research over several months.
- Developed and tested strategies to predict future market movements, applying data analysis techniques to enhance trading outcomes.
